

* Equipment

- * Serrated knives
- * Angle shaft
- * Toolbox
- * Touch-PC control
- * Mechanical pressure system
- * Lift for Euro-boxes

Bavarian State Award
Bayerischer Staatspreis
2001

- * Pressure sensitive pre-compacting
- * Multiplex-grid on roller bearings
- * Infinite adjustment of forward feed 1-32
- * Pre-compacting from the sides
- * Stabilisers for source material

Technical Data	SR 2 turbo
Dimensions L x W x H in mm	1550 x 900 (1400) x 1300
Weight of machine	850 kg
Wattage	3,5 kW
Fuse protection	16 A
Size of shaft W x H x L in mm	120 x 120 x 500
Section length in mm	0,5 to 32
Sections per minute	160/ 320
Cutting temperature	-5°C to +80°C
Cutting output maximum	3 000 kg
Standard grid-sizes in mm	5, 10, 20, 40, 60 and 6, 12, 24, 60 and 7, 15, 30, 60 can be combined
Special grid-sizes	can be supplied

Subject to technical changes

* Accessories

- * Retaining claw plunger for portioning
- * Sectioning blade for bones
- * Plunger for waste pieces
- * Blade-sharpener in the toolbox
- * Cheese-grids in different sizes
- * Standard carriage feed system
